

“Postdoctoral position: RNA binding proteins with roles in melanoma metastasis”

Centre for Genomic Regulation (CRG)

The Institute

The Centre for Genomic Regulation (CRG) is an international biomedical research institute of excellence, based in Barcelona, Spain, with more than 400 scientists from 44 countries. The CRG shares principles of an interdisciplinary, motivated and creative scientific team that is supported by high-end and innovative technologies and a flexible and efficient administration.

CRG has been conferred with a badge of ‘HR Excellence in Research’ by the European Commission, in recognition to its progress in implementing the European Charter for Researchers and the Code of Conduct for Recruitment of Researchers, that among others consists of transparent, merit-based recruitment procedures and attractive work-life balance working conditions.

For further information: www.crg.eu

The role

A postdoctoral position is available in the lab of Fátima Gebauer to investigate the role of novel RNA binding proteins (RBPs) in melanoma progression. A recent screen in the lab has identified RBPs with potential roles as either tumor suppressors or promoters. The position is available to determine the molecular mechanisms underlying these effects, with a special focus on RBPs involved in translational control and metabolism.

About the team/ lab/ department

Fátima Gebauer leads a team of motivated researchers working on RNA regulation and translational control in *Drosophila* and human cancerous cells. For more information about the group, please visit http://www.crg.es/fatima_gebauer.

Whom would we like to hire?

- You hold a PhD In Biomedicine/ Molecular Biology
- You have at least 5 years of experience in RNA research.
- You have proven experience in/ with RNA binding proteins
- You are fluent in English

Desirable but not required

- You have experience with mouse models and/or bioinformatics analysis of high-throughput data

The Offer

- **Contract duration:** Until the 30th of December, 2021
- **Estimated annual gross salary:** Salary is commensurate with qualifications and consistent with our pay scales.
- **Target start date:** April 2019

We provide a highly stimulating environment with state-of-the-art infrastructures, and unique professional career development opportunities.

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

The CRG is committed to reconcile a work and family life of its employees and are offering extended vacation period and the possibility to benefit from flexible working hours.

Application Procedure

All applications must include:

1. A motivation letter addressed to Dr Fátima Gebauer.
2. A complete CV including contact details.
3. Contact details of two referees.

All applications must be addressed to Dr. Fátima Gebauer and be submitted online on the CRG Career site - <http://www.crg.eu/en/content/careers/job-opportunities>

Deadline: Please submit your application by 31st of January, 2019
